Delivery address

Quantity	Article Number	Description		
	SA	SIGGI advanced <i>Signal Generator / Impedance Meter with computer driven configuration program,</i> € 750,00 each		
	SB	SIGGI basic <i>Signal Generator / Impedance Meter with standard parameters (optimized for EEG)</i> € 550,00 each		
		Parameters for Impedance Measurement	Parameters of Signal Generator	
		Frequenz 1: 8 Hz	Frequenz 1: 0.1 Hz	Amplitude 1: 100 µV
		Frequenz 2: 32 Hz	Frequenz 2: 8 Hz	Amplitude 2: 1000 µV
		Frequenz 3: 256 Hz	Frequenz 3: 128 Hz	
	SB-X	SIGGI basic <i>Signal Generator / Impedance Meter with customer-specified parameters,</i> € 550,00 each:		
		Parameters for Impedance Measurement	Parameters of Signal Generator	
		Select three of these frequencies: 8, 16, 32, 64, 128, 512, 1024 Hz	Select three of these frequencies: 0.1, 0.2, 0.5, 1, 4, 8, 16, 32, 64, 128, 512, 1024 Hz	Select two of these amplitudes: 50, 100, 500, 1000 µV
		Frequency 1: _____	Frequency 1: _____	Amplitude 1: _____
	Frequency 2: _____	Frequency 2: _____	Amplitude 2: _____	
	Frequency 3: _____	Frequency 3: _____		

Please ask for delivery terms to foreign countries.

SIGGI was developed and is manufactured according to the guidelines and safety rules of the European Union.

SIGGI carries the  mark.

SIGGI is no medical product.
